Floor Safe Tiles are a simple and safe system designed to protect your valuable flooring surfaces in multi-use applications.

- **Safe** - Certified high-traction by the National Floor Safety Institute (NFSI)
- **Durable** - Low pile, polypropylene carpet with bitumen backing is stain resistant and sturdy
- **Easy to Install** – 40” x 40” (1 x 1 meter) tiles are easy and safe for one person to install; no glue, tape, or special connectors required as the mass of the tile installation holds everything in place
- **Sturdy** - Chairs, tables, and other items can be placed on top of the installed tiles and carts can be pushed across the tiles
- **Available in medium grey to blend with virtually any décor**
- **Storage carts** are available for an additional fee and hold up to 80 tiles
**Floor Safe Tiles**
